

Submission Checklist

Tick every line before you submit. Where the event rules say something different, the rules win.

RULES

- ☐ Track chosen, and it matches what we built
- ☐ Deadlines, time zone and required deliverables checked against the official rules
- ☐ Rules on prior code, licenses and AI use read and followed

REPOSITORY

- ☐ Public repo that opens without login, with a license file
- ☐ Setup works on a clean machine, tested by someone who did not write the code
- ☐ No secret keys or seed phrases in the repo or its history

README

- ☐ One line: user, problem, result
- ☐ How it works: architecture and the Stellar pieces used
- ☐ How to run it, step by step
- ☐ Proof: network, contract IDs, transactions, explorer links
- ☐ Honesty: simulated parts, limits, reused code versus what we built here

DEPLOYMENT AND EVIDENCE

- ☐ Contracts deployed on the network the rules ask for
- ☐ At least one transaction a judge can open
- ☐ Evidence of user need linked, shared with the consent of the people involved

DEMO AND VIDEO

- ☐ Video inside the time limit, viewable without login
- ☐ Backup recording ready on the presenting laptop

FINAL CHECK

- ☐ Every link tested from a private browser window
- ☐ All submission form fields complete
